IT SUPPORT by retrac

Improve business efficiency with Retrac's IT Support

Technology is revolutionising our world. It is reshaping business and society. No matter what size your business is, you need to ensure your organisation functions reliably and, in a people-centric way, each and every day.

If your current IT system or support isn't working as planned, you may face the following problems:

-

Connection errors - your network is constantly failing, wasting time and causing frustrations across your whole business.

Your systems don't speak to each other as they should – you've grown in size and so has your mix of hardware, switches and cables, with little or no integration between them.

- Slow response your problems aren't solved quickly and you're not getting the support you need from your current IT provider
- Your staff aren't doing the job they were originally hired for instead they are focused on fixing IT and don't have the right set of skills or experience to maximise your technology output.

Properly functioning IT support is an essential component to keep any business productive. You need a partner you can trust to keep your IT systems healthy, and your people happy.

Retrac works with business of all sizes. We can help you manage your environment and optimise your IT infrastructure. We'll give you the peace of mind you need, when and where you need it most.

IT support by retrac

IT Support by Retrac is a comprehensive support solution that helps put you back in control of your technology environment.

We provide IT support and services to businesses all over Australia. Through our partnerships with Cisco, HP and Microsoft, we help our customers' IT systems to function dependably and consistently every time.

With flexible plans to suit you, Retrac works hard to ensure you have a plan in place that suits your bespoke business needs.

key benefits:

Move your business forward with the right infrastructure.

Our technical staff, qualified in Cisco networking, will ensure your wireless, switches, server and security are set up correctly.

IT at your fingertips.

We'll use our wealth of expertise, up to date knowledge of new technology and vast experience to locate your issues faster and help get you up and running.

Help when you need it.

Our experts are available to help you when things go wrong. With daytime, business hours support and emergency out-of-office hours, you'll have access to our helpdesk and advanced ticketing system to troubleshoot problems straight away.

Trusted partner.

As your IT partner, we'll proactively seek to improve your IT environment with a thorough audit of your network and we'll make recommendations to fix your issues.

Proactive prevention.

We'll gather information daily to run performance reports and see where your bottlenecks lie.

Get the most out of your IT and cloud environment.

Maximise the return on your IT investment and increase your productivity – across your entire business.

Expert help when planning your IT project.

Our expert team will help you plan, source and implement your new IT equipment, services, Cloud or on-premise.
